

DOOR DECOR; EASTER DUCKS WITH BALLOONS

Use the patterns to cut pieces for the ducks and the balloons. The balloons are shaped and decorated like Easter eggs so use pastel colors for the egg decorations.

When attaching the décor to the resident's door, arrange the balloon eggs over the head of a duck. Use a paper punch to punch two holes in the duck's wing, one near the top and another at the bottom. Run yarn from the back of each balloon egg to the top hole in the wing and out again through the bottom hole. Secure with tape on the back side.
