

JULY DOOR DÉCOR

The patterns provided are for the construction of firecrackers.

You will need construction paper of red, white, blue, and yellow, scissors, glue, glitter, and tissue paper of red and yellow.

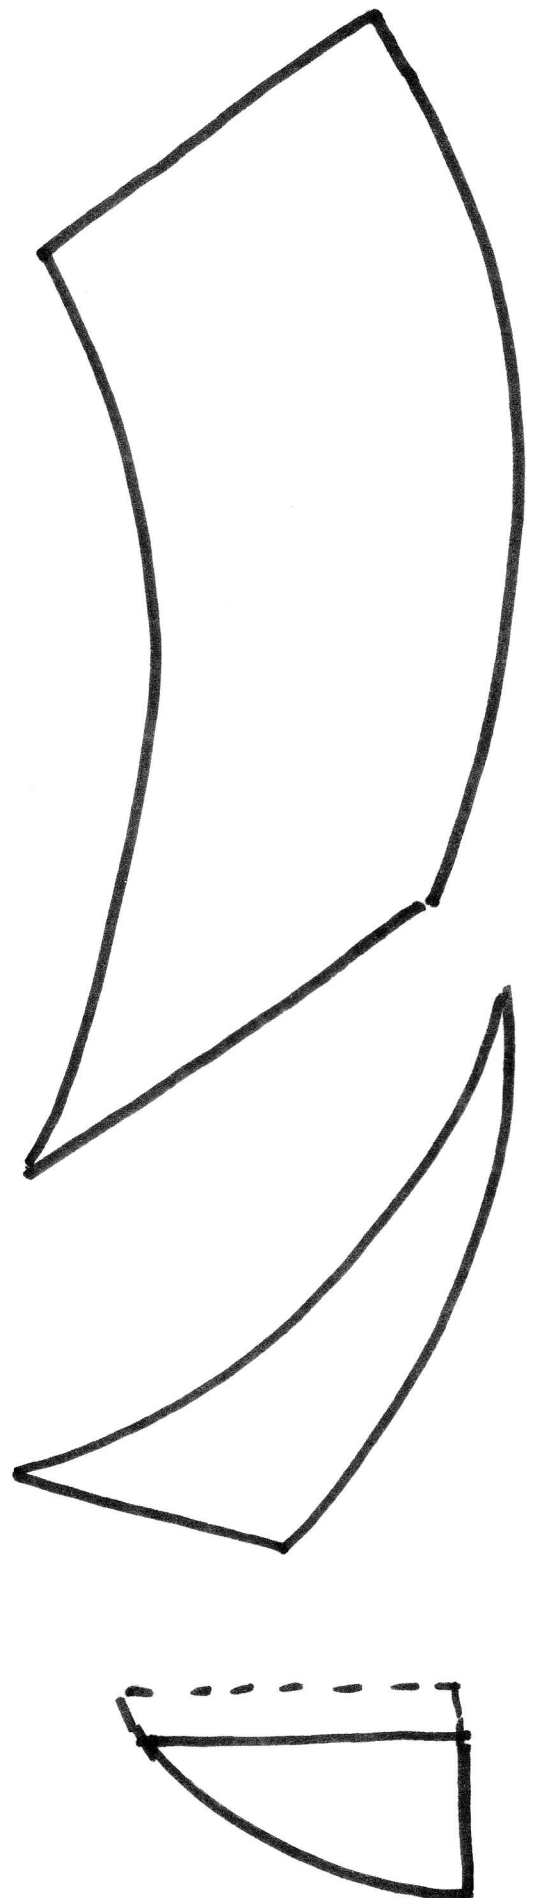

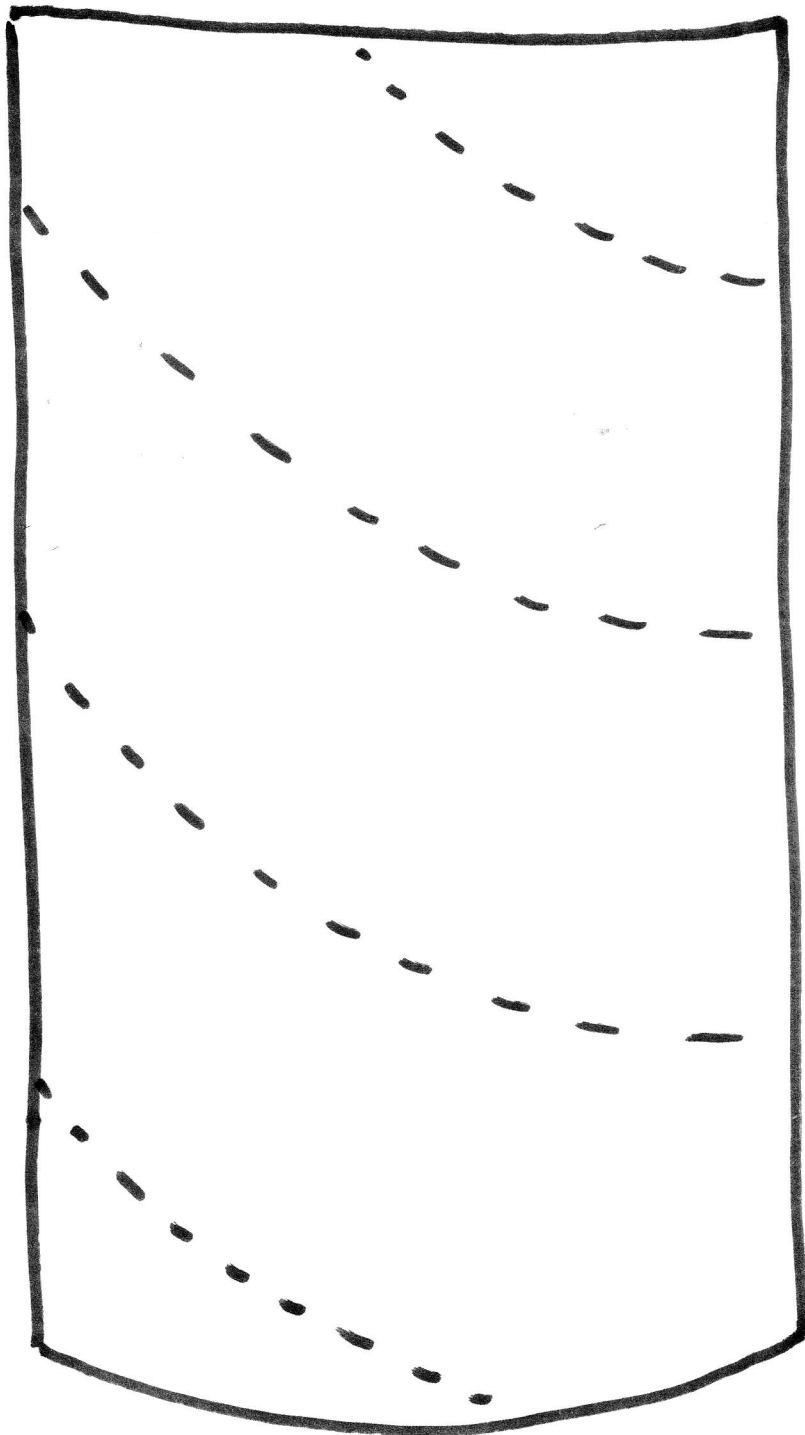

Cut firecrackers of different colors and decorate them as you desire using contrasting colors and designs. Glue on the pointed tops and then attach long, narrow tissue paper streamers from the bottom of each firecracker.

Cut several star bursts of different sizes from yellow paper.

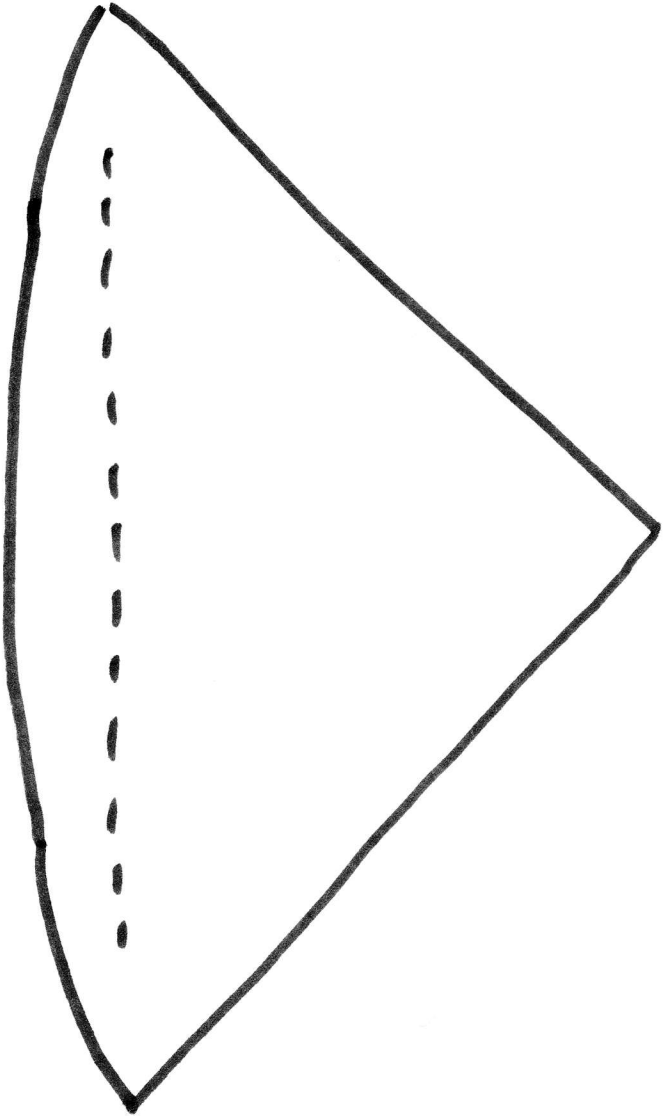

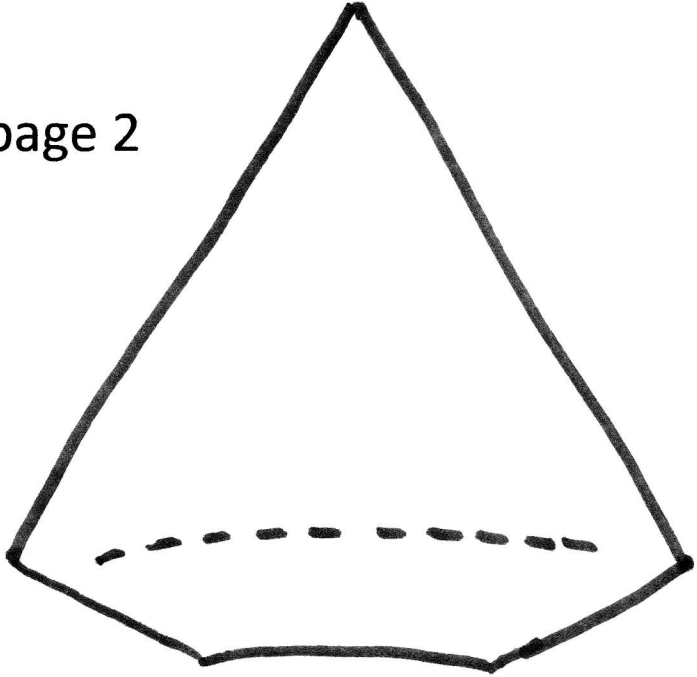

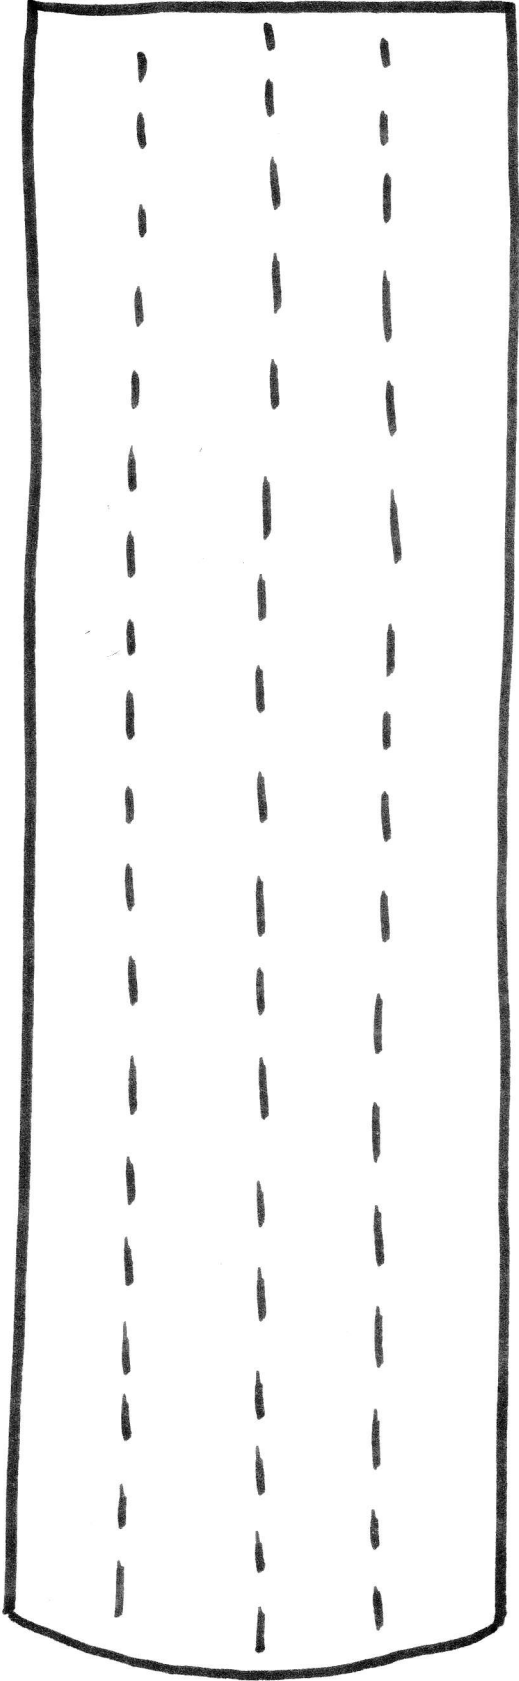

Adding the glitter to the star bursts adds instant eye appeal.

Attach all the items to the resident's door using masking tape, leaving the streamers loose so they can move.
