

## DOOR DÉCOR; APRIL (EASTER)

Using the pattern, trace several eggs on a plain piece of construction paper or tag board and cut them out. Next, trace several more eggs on different brightly colored construction paper, including the stripes. (It's much easier to simply run a mixed set of construction paper sheets through the copier.) Cut the eggs into stripes. Then, mix the colors as you glue the stripes to the original plain eggs.

Once the stripes are glued into place, decorate the eggs with glitter, making narrow wavy lines around the eggs, polka dots, stripes, or zig-zag lines. Hang in an "array" on the resident's door.
