

DOOR DÉCOR; JANUARY

Use the patterns provided to trace and cut the words for “HAPPY NEW YEAR”. Use star patterns to cut out several stars for each door. White paper works well for stars if you plan to cover them with glitter. The words look good in a bright or dark blue with glitter decoration of silver or gold. Attaching a narrow white string or yarn to the stars and arranging them as a “burst” adds appeal.

Rather than try to cut holes in letters, simply cut out a black shape, round, triangular, etc. and glue it where the hole should be. Much easier and neater!
