

## ALL ACTIVITIES LTC

This small group game, 3 to 5, offers a great opportunity for table conversations!

### MAGAZINE BINGO

Participants must have the ability to recognize pictures in a magazine and match them to the word on their Bingo card. To add an additional feature, they should have the ability to cut.

#### GAME ONE;

Each participant is given a bingo card, 4 or 5 magazines, a pair of scissors, and markers (chips or stones, etc.)

When the game begins, every participant begins looking through the magazines to find pictures that depict a word on their card. When they find one, they cut it out and place a marker on that item label on their card. When they get five in a row, horizontal, vertical, or diagonal, they bingo. The facilitator checks the pictures against the words for accuracy. If all are correct, you can start over in a new game or continue to play for additional bingos or for a blackout.

#### GAME TWO;

The facilitator uses the magazines and holds up various pictures. If a player has the corresponding word on their card, they cover it with a chip. Any and all pictures can be shown by the facilitator. This version does not provide the same level of interaction as the first version but it would allow a wider range of skill levels to play.
