

ST. PATRICK'S DAY TATER TOSS

The tater toss consists of four bean bag "taters" and a small bucket. A line is taped on the floor using masking tape. Participants are asked to stay behind the line when tossing the taters. As the judge, you decide if the bucket needs to be closer to the participant or further away.

Players are required to get all four taters in the bucket. Once done, give them a treat and direct them to the next station.

Remember to initial their slip!
