

Potato pattern

Cut 2 from brown felt

Sew on "eyes" before

Stitching together

BEAN BAGS

Making bean bags is very easy. Cut two identical patterns so you have a front and back. Stitch them together part way using the blanket stitch. If you do not know it, a diagram follows. Also, there may be women in your facility who know this stitch and who would love to help make bean bags. Once the bean bag is stitched around $\frac{3}{4}$ of the way, pour in the dried beans until you have the quantity desired. Then simply close the opening with one blanket stitch and tie it off. The blanket stitch is the same one used for the making of the felt puppets.
